

ELRP WINTER GATE LOCK - NEW KEYS REQUIRED FOR ALL!

At the end of September we will once again be shutting down the park power gates for the winter. Since we were unable to obtain more copies of the old winter gate key we had to purchase a new padlock and NEW KEYS. This means anyone with an old CXS gate key may exchange that key for a new key at no charge. **If you require winter access to the park (and you don't have an old key) you must purchase a new key for \$25.00.**

Keys are available at the main store until the end of September. After that time you will have to email the manager at elrpmanager@outlook.com to arrange for a new key. If you have any questions please call during office hours 306-466-2089.

Thank you for your cooperation!

Fran Nutter
